WHO WE ARE

Pure Expertz is a marketing and automation agency.

In Andy's fuller words: "a marketing, automation and technology organization with great principles, guided by the Block by Block AI Safety and Security Alliance."

THE GROW CONNECTION

Our ecosystem is designed to be free, with five doors in:

01 **Community**

02 **Masterminding**

03 **Open office hours**

04 **Workshops**

05 **A network**

Audience matters more to us than ticket sales. Come in through any door.

A LETTER FROM ANDY

Welcome to the Grow Connection.

Welcome to the first issue of Pure Expertz Monthly. Once a month, this is where you will see what we are building, who is building it with us, and how you can take part.

Pure Expertz is a marketing, automation and technology organization with great principles, guided by the Block by Block AI Safety and Security Alliance. In practice that means three things. The tools serve the people. A person signs off on every step. And we tell the truth about what AI can and can't do.

Around that work we designed something we call the Grow Connection. It is free by design: a community, masterminding, open office hours, workshops and a network of people who show up for each other. Audience matters more to me than ticket sales. If you came in through one door, four more are waiting.

This is the Forum issue. On November 12, 13 and 14 we gather online for three afternoons: keynotes, then a practical panel every day. Dr. John D. Byrnes gives the Day 2 keynote, Mike Van Chau joins him on Day 2, Sal Walaszek shows how Salway Group runs on our scaffolding, and Tom Gersic brings YouEx.ai to Day 3. Inside you'll also find our Trusted Service Provider network, the weekly rhythm, six principles from my handbook and what's happening here in Glenview.

My ask is simple. Come to one office hour. Bring one question. Invite one person who will be glad you did. That's how a community grows: block by block.

ANDY'S LENS · INSPIRED BY THE MOONSHOTS PODCAST

2026: *The Fulcrum Year.*

A fulcrum is the small point a lever turns on. Andy sees 2026 as that point: the year when years of quiet progress began to move very large things.

For years Andy has watched **Moonshots with Peter Diamandis**, where Peter talks through AI and exponential technology with Dave Blundin, Salim Ismail and Alexander Wissner-Gross. This page is Andy's reading of the moment, not their forecast.

He identifies with people who worked toward one outcome for a decade, then took stock and put it all to work making the world better. In his words, he is ***"happy where I am with my knowledge and perspective."***

WHAT WE DO WITH IT

1. **Academy** · learn by doing
2. **Incubator** · build your offer
3. **Accelerator** · grow with systems

Business ownership is the through-line.
Start at the Forum, Nov 12–14 · pureexpertz.com/forum

01 · A BEFORE AND AN AFTER

A different world on the other side.

In Andy's view, the world after 2026 won't look like the world before it. Work, learning and care are being rewired at once.

02 · REAL THINGS FIRST

The build-out starts on the ground.

AI runs on buildings, power and skilled hands. As Andy reads it, construction, the trades and the towns that welcome them feel it first.

03 · INTELLIGENCE EVERYWHERE

Room for bigger, more personal problems.

With intelligence close at hand, routine work gets lighter, and people get time for what matters: family, a business of their own, a neighborhood.

04 · FEAR IS A STARTING POINT

Education, community and building.

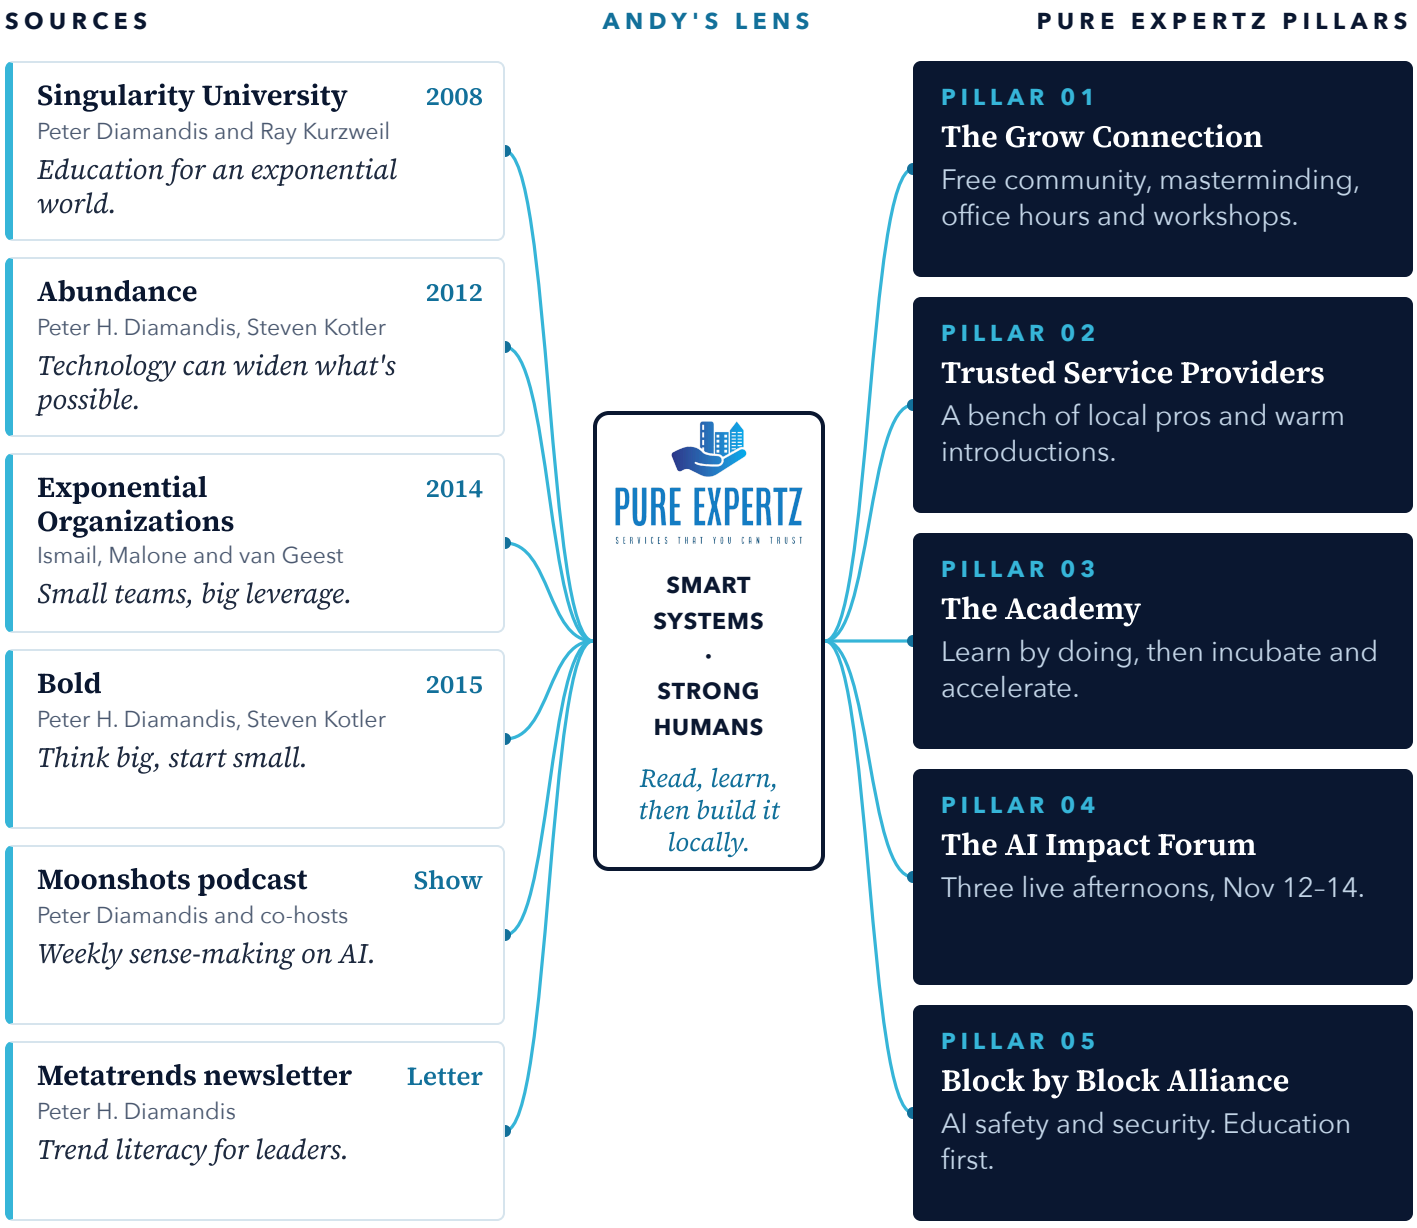

Many people are scared of AI. Our answer isn't hype or panic. It's education, community and building something real together.

Inspired by **Moonshots with Peter Diamandis** (diamandis.com/podcast), with Dave Blundin, Salim Ismail and Alexander Wissner-Gross. Andy's interpretation; the hosts are not affiliated with Pure Expertz. A point of view, not a forecast or financial advice.

THE LINEAGE

Where our thinking comes from.

The books, the show and the program behind Andy's thinking.

THE COVER STORY · AI IMPACT FORUM 2026

Three afternoons. *One plan for 2027.*

AI is changing how every business and every household works. For three live afternoons, owners, leaders, HR teams, real estate pros and families work through what to do about it, with people who do this every day.

THU · DAY 1

12

Business & Real Estate

Running the business with AI, without breaking the team.

FRI · DAY 2

13

People, Behaviors & Mindset

Health, Caregiving & Prevention. Keynote 2–3 PM: Dr. John D. Byrnes.

SAT · DAY 3

14

Systems, Technology & Power

The systems that keep a home and a business running.

- 1–4 PM CENTRAL EACH DAY
- ONLINE IN THE MEMBER PORTAL
- EVERY SESSION RECORDED

THE FORMAT

Keynotes, then a panel. Every day.

Each afternoon runs from 1 to 4 PM Central, live online in the Pure Expertz member portal, on a laptop, a tablet or a phone. Hours one and two are keynotes. From 3 to 4 PM, working professionals take the panel and talk about their path and what is practical right now.

It's a conversation, not a debate, and it's about this year, not predictions. Every session is recorded.

"The tools are easy. The gap is people."

Education, not legal or medical advice.

THE DAY 2 KEYNOTE

Dr. John D. Byrnes

D.Hum, FACHT · Founder, Center for Aggression Management

FRI NOV 13 · 2–3 PM CT · ONE FULL HOUR

Prevention starts with *noticing early.*

Dr. John D. Byrnes is the founder of the Center for Aggression Management. According to the Center's public biography, the Center dates to 1993, and Dr. John served aboard USS Nautilus (SSN 571), the first nuclear-powered submarine.

Day 2 of the Forum is built around violence, bullying and crime prevention, for HR leaders, first responders, city and village staff and families. Dr. John has the full hour from 2 to 3 PM Central, followed by a 3 PM panel of HR leaders and working professionals.

Every Pure Expertz workshop also closes with a short introduction to the Center for Aggression Management.

DAY 2 AT A GLANCE · FRI NOV 13

HOW PEOPLE USE IT

HOMEOWNERS & FAMILIES

Join free, ask at office hours, or book a Confidential Home Evaluation. We introduce; you choose and hire.

BUSINESSES

Present to the network, get found, and add AI and automation.

For real estate, mortgage, title, insurance and other settlement-service professionals: membership is education, tools and community. No referrals, leads or introductions are given in exchange for membership.

CASE STUDY · DAY 1 SHOWCASE

Same scaffolding. *New industry.*

On Day 1, Sal Walaszek of Salway Group shows how a tracking and logistics company runs on the same scaffolding as the Pure Expertz ecosystem.

The pattern is simple. Underneath everything we do is one scaffolding: a community, a member portal, weekly office hours, live workshops and tracked links. Trusted service providers subscribe to it. Their people walk in through the free door.

For a home-services company, those people are homeowners and families. For a logistics company like Salway Group, they are drivers, and drivers get access the same way homeowners do.

Sal's 15–20 minute showcase on Thursday, November 12, in the 2 PM hour, walks through what that looks like in tracking and logistics.

Why it matters for your industry. If you run a company with a field team, a customer base or a membership, the same pattern works. Insurance agencies, real estate brokerages, architects and general contractors are next in line.

LOCAL FOCUS · GLENVIEW, ILLINOIS

Photo: a restaurant room, photographed by Andy Babala

Glenview, one block at a time.

We started at home. Local businesses, neighbors looking for work and families looking for answers all meet in the same conversation.

Local businesses

Join the Trusted Service Provider bench, take a 5-minute spotlight at office hours and get to know the other owners in town.

Glenview comes first. We go deep here before we go wide.

Jobs

Hiring? Looking? Share openings and skills in the community, where owners and neighbors already talk.

We help with the AI and automation side: clear job posts, simple screening steps and onboarding checklists. We don't place people; we help the right conversations happen.

Solutions

Bring a question to Wednesday's lunch & learn or to open office hours.

For homeowners and their adult children: a Confidential Home Evaluation, a private talk about what makes sense in the house, with introductions to trusted local providers.

PRINCIPLE 48

FROM THE BOOK · THE 50 PRINCIPLES FOR LIFE, LEADERSHIP & COMMUNITY IN THE AI ERA

Six principles *for the AI era.*

Andy's handbook, drawn from The New Rules of Freedom, *holds the operating system he runs his businesses and community work on. In his words: "Read them once. Pick the one that makes you wince. Apply it this week."*

05

Community is the original technology.

Before AI or automation, humans survived by cooperating, not competing. Community rebuilds resilience, creates support systems, pools shared resources and lets people solve problems together in difficult times.

TAKEAWAY Technology should enhance community, not replace it.

What community are you building or rebuilding?

10

Automate the repetitive; humanize the important.

Give AI and automation the repetitive work that drains you. Reserve human attention, your most valuable asset, for connection, creativity, trust-building and judgment.

TAKEAWAY Trust and creativity can't be outsourced to algorithms.

What can you automate so you can be more human where it matters most?

11

Security is not paranoia. It's care.

Safety comes from structured systems, not fear. People flourish when they trust their environment. Real preparation is an expression of care for the people you lead and love.

TAKEAWAY Preparedness calms anxiety and prevents panic in a crisis.

What security system needs to be built or strengthened?

About the handbook. All 50 principles are grouped into three sections: Foundations, Connection & Growth, and Legacy & Freedom. Each one comes with a core message, key takeaways and a reflection prompt, so a team can work through one at a time.

12

Duty of care is a leadership standard.

Every leader is responsible for the well-being of the people in their circle. Leadership without a duty of care is only an exercise of authority.

TAKEAWAY Duty of care reaches across families, businesses and communities.

Who is in your circle of responsibility?

41

Teach what you learn immediately.

Teaching turns knowledge into wisdom. When you share what you're learning, you deepen your own understanding, expose the gaps in your thinking and multiply your impact.

TAKEAWAY Shared knowledge builds stronger teams and communities.

What can you teach right now?

48

Local changes scale globally.

Transforming one block, one school, one workplace or one neighborhood can influence an entire region. The most credible path to broad impact starts with taking responsibility for the place where you already stand.

TAKEAWAY You don't need global scale to begin making a real difference.

What local change can you start?

"Promises inspire. Evidence sustains."

PRINCIPLE 18 · TRUST IS BUILT THROUGH EVIDENCE, NOT PROMISES

YOUR MOVE THIS WEEK

Pick one principle. Live it for seven days.

Then bring it to open office hours, Tuesday or Thursday at 1 PM CT, and tell us what changed. All 50 principles are in the handbook; ask for it in the community at **community.pureexpertz.ai**.

BLOCK BY BLOCK AI SAFETY AND SECURITY ALLIANCE

Education first.

Prevention is a team sport. Free to join, voluntary and nonpartisan.

The Alliance is a network of security, safety and HR leaders, property managers and caregiving leaders who share what works in prevention and practical AI safety, and who connect families, neighborhoods and organizations with the right help, early.

It is also the compass for Pure Expertz. We describe ourselves as a marketing, automation and technology organization guided by the Alliance, which is why every workshop, panel and office hour starts with education.

Three ways to take part: share what works at Thursday office hours; open a small neighborhood hub in an office, club, library or community room; and bring your team to the Forum.

Pure Expertz LLC stewards the Alliance. It is free and voluntary, is not a governing body, and issues no credentials, titles or licenses. Prevention training is taught by credentialed partners.

HOW WE WORK

Free and voluntary
No cost and no dues. Leave any time.

People decide
AI can draft, sort and remind. A person makes the call and owns it.

Prevention first
Notice early and act early.

Privacy
Collect only what the job needs.

Honest claims
Facts only. If we don't know, we say so and check.

Nonpartisan
No candidates and no endorsements.

WHO IT'S FOR

Security leaders · Safety leaders · HR leaders · Property managers · Caregiving leaders

FOR CYBERSECURITY AND TECHNOLOGY COMPANIES

Put your name behind education.

Founding sponsor places are open. We're inviting cybersecurity and technology companies to sponsor education in the Block by Block AI Safety and Security Alliance and at the AI Impact Forum, and to stand in front of an audience of owners, HR leaders, security professionals and families who are deciding what to do about AI right now.

01

Education sponsorship

Your company's name on a workshop series or a Forum afternoon, thanked live when the session opens and closes.

02

A 2–5 minute spot

Live or recorded, inside a Forum afternoon or a workshop. Teach one useful thing your team knows well.

03

Panel seats

A voice from your team on a 3–4 PM panel, talking about what is practical now.

04

A blueprint for your organization

How a Pure Expertz AI campus or academy can work for your people: workshops, a weekly schedule, recordings, office hours and a community of their own.

Talk with Andy for 25 minutes.

calendly.com/andybabala/25min · support@pureexpertz.com

Every sponsorship is a flat fee for education and a speaking spot, set out in a short written agreement. Fees are never tied to referrals, sales or attendance. Pure Expertz educates and connects; we don't endorse sponsors' products, and no attendee list is ever shared.
